## About This Game

The Ragdoll is a fast-paced, action filled fighting game, which looks back to our childhood-favorite stickman fight games but with modern twists.

In this game you'll have the chance to have fun either alone or with your friends and even with strangers.

The 1.0 version will contain:

- Three different, themed tournaments
- Dozens of unlockable skins
- Dozens of different objects to fight with
- 15+ maps
- Local quick game and co-op tournaments
- Online co-op tournaments and a few PvP game modes
- Full controller support
- 15+ achievements
- Puns

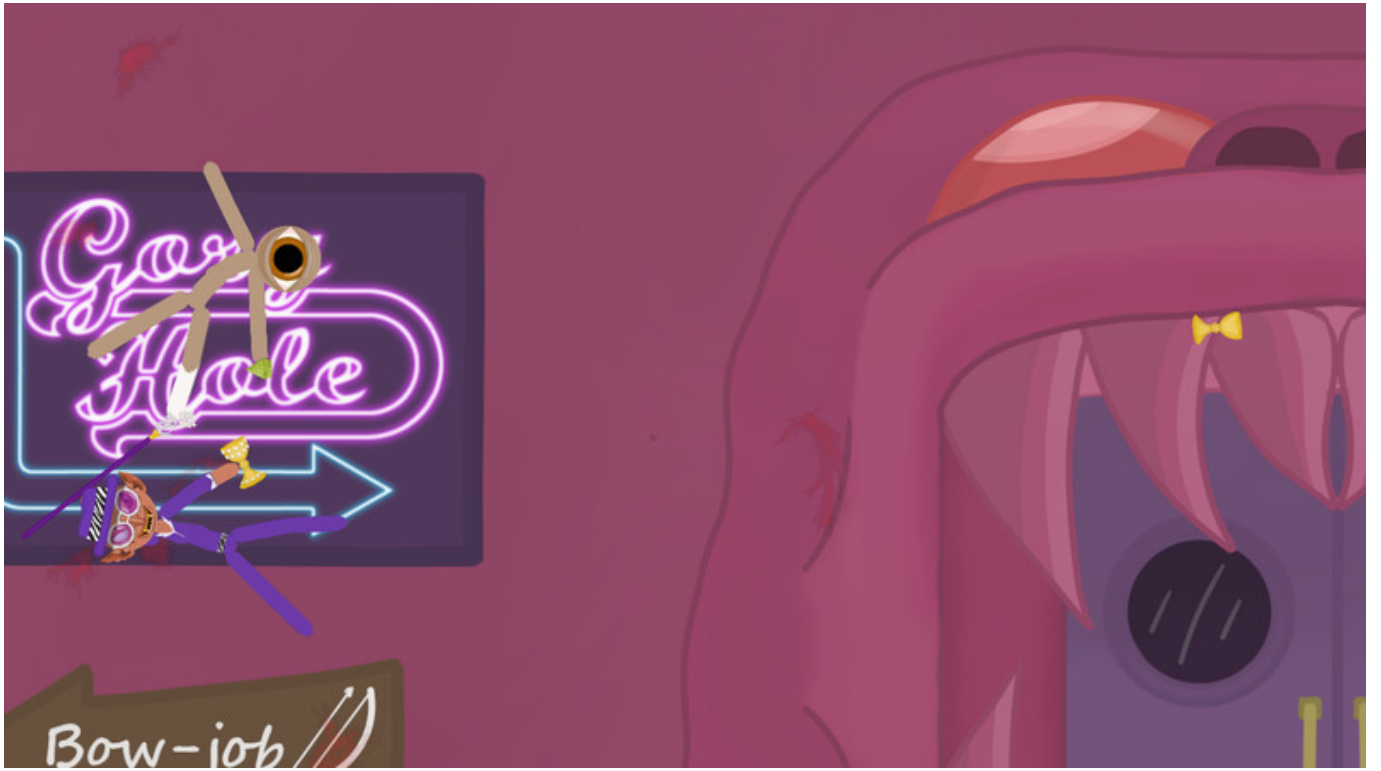

This game is a product of mostly 2 people so it's a true indie game. But don't get that wrong, there is a lot of soul and caring in this game and will be more in the future.
